Welcome ABHINAY VALLAMDASU. This assessment will verify that you understand the Topcoder Terms and Conditions.

Chen registers for a code challenge. After Chen's submission, he learns he's won second place. Chen is proud of his accomplishment. Chen can post a video walkthrough of his submitted code and how he solved the problem.

- ☐ True
- ☒ False

Chen registers for a code challenge. After Chen's submission, he learns he's won second place. Chen is proud of his accomplishment. Chen can post a video walkthrough of his submitted code and how he solved the problem.

✓ False - Correct

Chen can not post a video of his solution. Since he won, the customer owns his solutions and Chen would be in violation of the Topcoder terms of service.

Ketan registers for a code challenge. After Ketan's submission, he learns he's won second place. Ketan is proud of his accomplishment. Ketan can post a link to the challenge on social media announcing that he took 2nd place.

- ☒ True
- ☐ False

Ketan registers for a code challenge. After Ketan's submission, he learns he's won second place. Ketan is proud of his accomplishment. Ketan can post a link to the challenge on social media announcing that he took 2nd place.

✓ True - Correct

Ketan can post a link to the challenge on social media. Challenges and their winners are publicly available information and can be shared on social media. Only information that is publicly available can be shared.

Brett has registered on Topcoder. Brett has a friend that's interested in software development, but has not registered for Topcoder. Brett can lend his login information to his friend.

- ☐ True
- ☒ False

Brett has registered on Topcoder. Brett has a friend that's interested in software development, but has not registered for Topcoder. Brett can lend his login information to his friend.

✔ False - Correct

Accounts may not be shared. This is a violation of the Terms and Conditions.

Igor won his last code challenge. He sees a new challenge launched with a similar requirement. Igor can take the code he submitted from the winning challenge and reuse the code for this new challenge.

- ☐ True
- ☒ False

Igor won his last code challenge. He sees a new challenge launched with a similar requirement. Igor can take the code he submitted from the winning challenge and reuse the code for this new challenge.

✓ False - Correct

Igor may not reuse the code submitted from a previous challenge that he won. It is a violation of the terms with Topcoder to reuse code that you have already submitted and been paid for as a winning submission.

Sonia has just finished a design challenge. Sonia did not win the design challenge but she was inspired by some of the submissions she saw. Sonia can use this inspiration to push her own work and use that inspiration to inform her own ideas.

- ☐ True
- ☒ False

Sonia has just finished a design challenge. Sonia did not win the design challenge but she was inspired by some of the submissions she saw. Sonia can use this inspiration to push her own work and use that inspiration to inform her own ideas.

✗ False - Incorrect

Sonia can be inspired by work from others and use that inspiration in her own thoughts and ideas.

Isabella has registered for a design challenge a few days after it was launched so she doesn't have a lot of time. Isabella has an idea for the submission using work that she has previously submitted and won with at Topcoder. Isabella can use this previously submitted work that she was paid for for this challenge.

- ☐ True
- ☒ False

Isabella has registered for a design challenge a few days after it was launched so she doesn't have a lot of time. Isabella has an idea for the submission using work that she has previously submitted and won with at Topcoder. Isabella can use this previously submitted work that she was paid for for this challenge.

✓ False - Correct

Isabella can not reuse previous submissions that she has been awarded prizes for. This a breach of the Topcoder terms.
